

ORGANIC ACID TESTING AND ENVIRONMENTAL TOXINS

PRACTITIONER SUMMIT

A 16-PART SERIES HOSTED BY 8 EXPERT SPEAKERS

**ALL ATTENDEES
RECEIVE A FREE
ORGANIC ACIDS
TEST (OAT)!**

Don't miss this exciting 16-part online pre-recorded workshop presented by a range of experienced clinicians and researchers.

GPL Academy is pleased to bring you this comprehensive series of workshops designed to help practitioners learn how to integrate GPL's comprehensive testing into their practices.

By signing up to the summit, you will find out why The Great Plains Labs (GPL) Organic Acids Test may be incredibly valuable to your practice, what particular markers may be the most meaningful to specific patients, and how to use the OAT in tandem with other tests such as the MycoTOX and GPL-Tox to provide your patients with the most personalised treatment plans possible.

If you are looking for new ways to help patients with difficult to diagnose and chronic health issues, this workshop is for you.

All sessions will be released on the 1st September but you can register in advance and be notified as soon as the sessions become available to watch.

To register, or for more information & FAQs, please visit EDU.RNLabs.com.au

PRICE: ONLY \$350

(OAT test usually \$359 + \$22 p&h)

Receive 1 year's access to the education
PLUS a FREE Organic Acids Test (OAT)!

TERMS

- You must watch the entire 16-part series to gain access to the free test. You may order the free test once you have watched all sessions.
- You can complete the series at your own pace, however, you only have until the 15th October to watch the entire series and order your test kit.

IMPORTANT DATES

Please mark these dates in your calendar.

All sessions are being released on Tuesday, 1st September at 10:00am.

You must complete all sessions and order your free test (using the special coupon code provided at the end) by 15th October.

The sample/free kit must be returned to RN Labs before Thursday, 15th April 2021.

SPEAKERS

Dr Kurt N. Woeller, DO

Dr William Shaw, PhD

Dr James Neuenschwander, MD

Dr Mark D. Filidei, DO

Paul Anderson, NMD

Dr Jill Crista, ND

Dr Shanhong Lu, MD, PhD

Joseph E. Pizzorno, ND

SUMMIT SCHEDULE

Remember, all sessions must be watched before 15th October to get your free test kit. While you can watch the sessions at your own pace, suggested 'watch-by' dates have been included below to make sure you're on track!

PART 1 – CLINICAL SIGNIFICANCE OF OAT

Learn how to use this comprehensive metabolic test in your practice to help with your most difficult-to-diagnose patients. With 74 markers, including those for yeast and bacteria overgrowth, inflammation, oxidative stress, mitochondrial dysfunction, oxalates, gastrointestinal dysbiosis, and nutritional imbalances, the Organic Acids Test (OAT) helps you discover the underlying causes of many chronic conditions.

Watch all these sessions by 14th September

1. Introduction to the OAT & Why It Is So Important in Practice - Dr Kurt N. Woeller
2. The Link Between Invasive Candida and Various Health Issues - Dr Kurt N. Woeller
3. The Link Between Invasive Clostridia Toxins & Various Health Issues - Dr Kurt N. Woeller
4. The Link Between High Oxalate & Various Health Issues - Dr Kurt N. Woeller
5. Neurochemical Imbalances and Quinolinic Acid Toxicity - Dr Kurt N. Woeller
6. Additional Case Studies: Lab Reviews and Treatment Options - Dr Kurt N. Woeller

PART 2 – MOULD & MYCOTOXINS

These webinars will focus on the health effects of mould toxin exposure. Learn about the 11 mycotoxins tested for in the MycoTOX Profile, as well as the many chronic health conditions mycotoxin exposure can cause. Speakers will review specific cases and treatment protocols.

Watch all these sessions by 28th September

7. Organic Acids & the link between Mould & Various Chronic Illnesses - Dr William Shaw
8. Treating Patients with Mould Toxin Induced Illness - Dr James Neuenschwander
9. The Hidden Threat of Mycotoxins - Dr Mark D. Filidei
10. Case Studies in Mould Exposure and Treatment Protocols - Dr Jill Crista

PART 3 – METAL & NON-METAL TOXINS

These webinars will focus on the epidemic of environmental toxin exposure. You will learn about many common environmental pollutants from the 172 chemicals tested by the GPL-TOX Profile. You will find out how these chemicals can affect our health and what steps can be taken to help detoxify the body. Speakers will review patient cases and explain how to use these tests in your practice and what treatments they've found to be effective for detoxification.

Watch all these sessions by 12th October

11. Non-Metal Toxic Chemicals and their Effects on Health - Dr William Shaw
12. Glyphosate and Parkinsons - Dr Shanhong Lu
13. Toxic Exposure and Cancer - Paul Anderson
14. Environmental Toxins and Autoimmune Disease - Joseph Pizzorno
15. Invasion of the Brain Snatchers - Dr Mark D. Filidei
16. Using the GPL-TOX and OAT in Clinical Practice - Dr James Neuenschwander

Once you watch all the sessions (any date) you can order your free test kit! Cut-off date for ordering the kit is 15th October, 2020
